To: All Croker Distributors and Sales Reps,

Re: Price Increase Effective 1-17-2022

Dear Valued Partner,

Croker will implement an estimated 10% increase effective January 17, 2022. Supply chain disruption and inflationary pressures continue to drive supplier price increases. We sincerely hope that market conditions will improve by the second half of 2022.

We will do our best to distribute pricing guides in advance of the increase. Orders placed and released on or before January 14, 2021, will be processed at current pricing.

As always, we thank you for your business and wish you and your families safe and happy holidays, with good health and happiness in the new year and beyond.

Respectfully,

A handwritten signature in cursive script that reads "Peter E. Levine".
