RE: New Price Notification Effective January 3, 2022

We have worked hard to control costs and limit the impact of price increases as much as possible. However, external forces related to material costs, freight, and other inflationary factors have not subsided. Therefore, there will be an average weighted increase of approximately 5%. Our goal is to continue to work aggressively to control costs, improve our efficiencies, and remain competitive in the marketplace.

Please see the attached file which will serve as your new pricing effective January 3, 2022.

We are also pleased to announce the upcoming release of our DPL122 catalog. By the end of November, you will have access to our new DPL122. It includes several new products, highlighted on pages 2-3. Be sure to take a look at our brand-new Dixon patented sanitary Clever Clamp on page 595. We hope you find our new catalog useful in locating product information as well as technical and reference data.

Thank you for your business. We appreciate it!

Sincerely,

A handwritten signature in black ink that reads "Scott Jones".

Scott Jones
Vice President, Sales
